

Welcome to the new and improved Krav Maga Australia, New Zealand and Oceania website! We have made searching easier by adding new elements to the site. These elements allow you to search by school rather than just by instructor, giving you more information. Plus we have a great rating and review system so you can share with other students feedback on Krav Maga schools.

For instructors we encourage you to login and keep your listing up-to-date so you can let more potential students find you. [For more information about the what this site can offer instructors please click here](#)
